## Pyramid graphs

The graphs overleaf show the population pyramid for Hillingdon, London and England from the 2011 Census.

The population pyramids show the size of the population by:

- 5-year age-band
  - 0-4, 5-9 etc, on to 80-84, and finally 85+
- sex
  - bars representing the size of the male population are left of centre
  - bars representing the size of the female population are right of centre
- ethnic group
  - 18 ethnic groups are shown

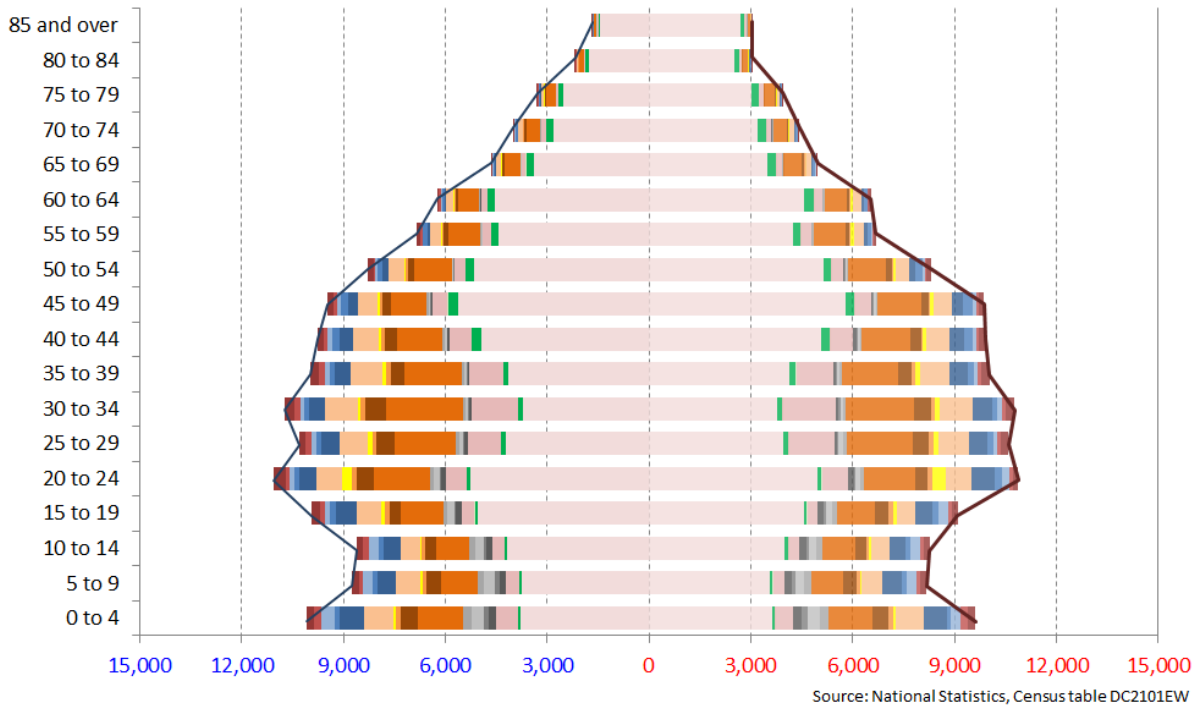

The lines around the outside of the population pyramid show the distribution of the population if the population graphed followed the age and sex distribution of the Hillingdon population.

- White: British
- White: Irish
- White: Gypsy or Irish Traveller
- White: Other White
- Mixed: White and Black Caribbean
- Mixed: White and Black African
- Mixed: White and Asian
- Mixed: Other Mixed
- Asian: Indian
- Asian: Pakistani
- Asian: Bangladeshi
- Asian: Chinese
- Asian: Other Asian
- Black: African
- Black: Caribbean
- Black: Other Black
- Other: Arab
- Other: Any other ethnic group

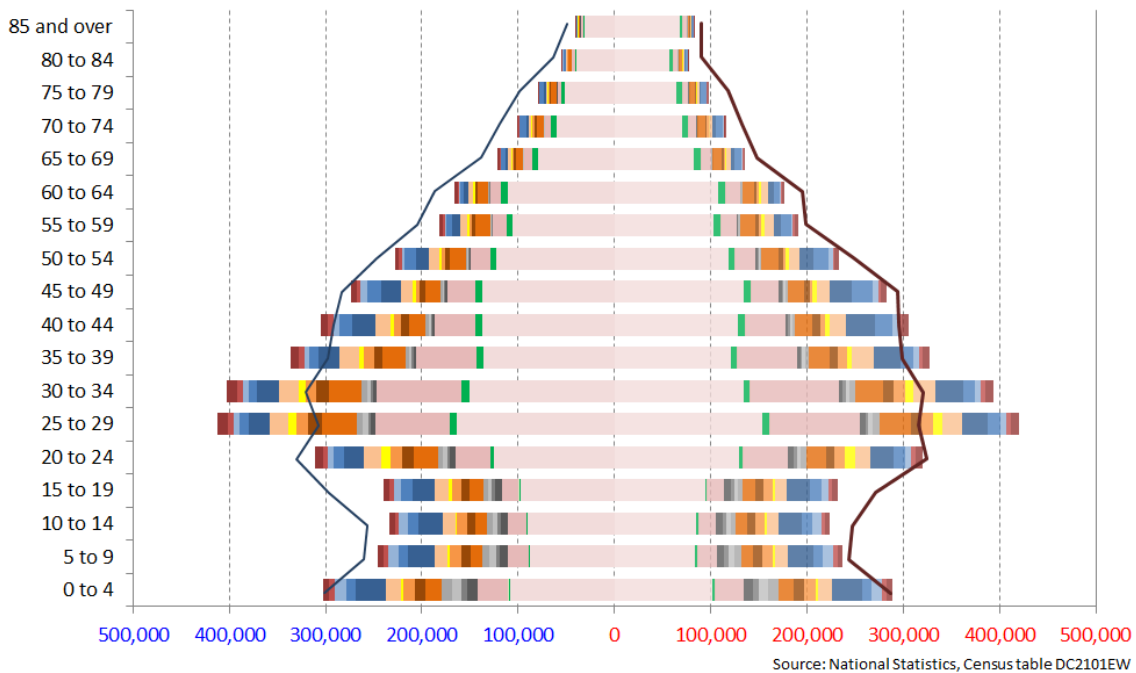

The population pyramids follow the same colour coding with regards to ethnic group.

The bars representing the male population size are a shade darker than the bars representing the female population size; hence bars to the left of centre are slightly darker than the bars to the right of centre.
